

Washington State 2003 Health Professional Loan Repayment Program

2725 NW Harrison Avenue – Suite 500 ♦ PO Box 47834 ♦ Olympia, Washington 98504-7834

Dear Health Professional:

Thank you for your interest in the Washington State Health Professional Loan Repayment Program. An application packet is attached for your use. Loan repayment awards will be made on a competitive basis, limited to the availability of funds. The Health Professional Loan Repayment Program is a state-supported general fund program and funds are limited. The aggregate debt of all applicants has normally exceeded the funds available in any given year. **Not all eligible applicants are assured of participation in the program.** Priority for program funds is given to those sites/practices demonstrating service to underserved populations. **It is expected that the site AND provider client population is reflective of the demographics of the service area described on the site application.**

Applications must include the required attachments. **Incomplete applications will not be processed.** Program emphasis continues to be on recruitment candidates; therefore, applications will be reviewed on the following schedule:

- | |
|---|
| <ul style="list-style-type: none">• Recruitment: (<i>Hired after September 2001 or filling a current vacancy.</i>) Due February 28, 2003 or July 31, 2003• Retention: (<i>Hired prior to September 2001.</i>) Due July 31, 2003. |
|---|

<p>NOTE: <i>Only recruitment applications will be considered in the first cycle of awards. In the second cycle, however, both recruitment and retention applications will be given equal consideration based upon their site priority. Funding is split between the two cycles. However, available funding has never been adequate to fund all those who submit qualified applications.</i></p>
--

Applicants are required to make a tentative match with an eligible site **PRIOR** to submitting an application. A list of eligible sites appears on the back of this application. **It is the responsibility of the health professional and site to contact each other to establish an appropriate match.** After an award has been made, it will be necessary for the health professional to submit contract documentation verifying the match has been confirmed. **A site may not receive two awards in the same profession in the same year.** In the event one site has two or more applicants from the same profession, the site will be given the opportunity to identify how the award will be distributed. This award **will not** exceed the highest debt requested or \$75,000, whichever is less.

Loan repayment funds are taxable income. Each recipient is responsible for the tax liability. The Washington State program does not include an additional payment to cover the tax liability. Program recipients will receive an IRS Form 1099 for tax reporting purposes. All funds obtained from this program must be applied to the educational debt submitted with this application.

If you have any questions regarding the application process, feel free to call either:

Kathy McVay	Program Manager	(360) 705-6665
Gloria Hall	Program Coordinator	(360) 705-6664

November 2002

2003 Health Professional Loan Repayment Program

ELIGIBILITY: *To be eligible to apply, an individual must:*

1. Be enrolled as a full-time student in the final year of an approved course of study or program which leads to a degree in an eligible health profession and which is offered by an accredited school; be enrolled in an accredited graduate training program; have a degree in an eligible program and have completed an approved graduate training program; have a current and valid license to practice such health profession in Washington State by the time of execution of contract; or be in the final stage of training to be licensed to practice an eligible health profession; submit an application on the official application form for participation in the Health Professional Loan Repayment Program;
2. Agree to serve an equivalent to full-time for not less than three years;
3. Agree to charge for professional services at the usual and customary rate prevailing in the area in which such services are provided;
4. Agree not to discriminate against any person on the basis of his/her ability to pay for services or because payment for the health services provided to the individual will be made under part A or B of Title XVIII of the Federal Social Security Act or under a state plan for medical assistance approved under Title XIX of such Act;
5. Agree to accept an assignment under the terms specified in Title XVIII of the federal Social Security Act, section 18.42 (b)(3)(B)(ii);
6. Agree to enter an agreement with the state Medicaid agency to provide services to individuals entitled to medical assistance under the plan;
7. Agree to repay to the program an amount equal to **twice the total amount paid by the program** if the service obligation is not met; and
8. **Not owe an obligation for health professional service to the military, federal government, state, or other entity unless that obligation will be completely satisfied prior to the beginning of service under this program.**

SELECTION: *Applicants will be selected for participation in the Health Professional Loan Repayment Program based upon the following criteria:*

1. The individual's training in a health profession or specialty needed to fulfill an underserved area in Washington State;
2. The individual's commitment to serve in a medically underserved area or community-based primary care site as determined by the statement of commitment on the application form;
3. The availability of the individual for service, with highest consideration being given to individuals who will be available for service at the earliest dates;
4. The length of the individual's proposed service obligation, with greatest consideration being given to persons who agree to serve for longer periods of time; and
5. The individual's academic standing, prior professional experience in a medically underserved area or health personnel shortage area, board certification, residency achievements, peer recommendations, depth of past residency/practice experience, and other criteria related to professional competence or conduct.

Among individuals determined to be eligible for the program, priority will be given to those qualified applicants whose health profession or specialty is most needed, and who are most committed to medically underserved areas and health personnel shortage areas.

AWARD: *Participants shall receive payment from the program for the purpose of repaying educational loans secured while attending a program of health professional training which led to licensure as a health professional.*

1. Repayment shall be limited to loans covering reasonable educational and living expenses and shall include principal and interest.
2. Financial debts or service obligations which do not qualify for repayment include: Public Health Service and National Health Service Corps scholarship training program, National Health Service Corps scholarship program, Armed Forces (Army, Navy, or Air Force) health professional scholarship programs. Loans not obtained from a government entity or commercial lending institution, such as loans from friends and relatives will be reviewed on an individual basis. Loans obtained for educational or personal expenses while at school which exceed the "reasonable" level of cost of attendance are not eligible.
3. **Payments shall be made quarterly to the participant** until the loan is repaid or the participant becomes ineligible due to discontinued service in a health personnel shortage area or after the fifth year of service when eligibility discontinues, whichever comes first. **All funds obtained from this program must be applied to the educational debt submitted with this application.**
4. Participants will be required to submit appropriate documentation of service each quarter as required by the program verifying the terms of the agreement have been met for each payment period. **The first payment can be expected after completion of the first quarter of service has been confirmed by submittal of a Service Confirmation form.**
5. Participants violating the non-discrimination provisions described in Section I, (5,6,7) shall be declared ineligible for receiving assistance.
6. Participants shall agree to execute a release to allow the program access to loan records and to acquire information from lenders necessary to verify eligibility and to determine payments. **Loans may not be renegotiated with lenders to accelerate repayment.**

REPAYMENT:

1. Participants who serve less than three years shall be required to repay to the program an amount equal to **twice the total amount** paid by the program.
2. At the request of the participant, the program may waive, in full or in part, the obligation for service or its rights to recover financial damages whenever the program determines that failure to do so was due to circumstances beyond the participant's control. Conditions that would be considered as a waiver from default provisions may include: participant becomes physically impaired to the degree that he/she can no longer

function in his/her assigned duties; or participant becomes mentally impaired to the degree that he/she can no longer function in his/her assigned duties; or death.

3. The program shall not be held responsible for any outstanding payments on principal and interest to any lenders once a participant's eligibility expires.
